

Software Developer

SUMMARY

5+ years building and shipping scalable web applications and backend systems. Focused on clean architecture, maintainable code, and systems that perform reliably under load.

- Full-stack development — End-to-end ownership from API design to UI and deployment
- System design — Scalable services, data modeling, and integration patterns
- Engineering practices — Clean code, testing, and iterative agile delivery

EDUCATION

Fudan University — Bachelor of Computer Science

2017 – 2021 | Shanghai, China

PROFESSIONAL EXPERIENCE

Airwallex (Shanghai) — Senior Software Developer

Nov 2023 – Present | Shanghai, China

- Engineered 4+ production-grade React applications, reducing development time by 40% through reusable component libraries
- Optimized application performance by 45% using lazy loading, code-splitting, and route-based chunking
- Built backend APIs with Nest.js and Node.js for cross-border payment processing systems
- Integrated ChatGPT API for conversational customer support tools
- Implemented secure authentication systems with Google OAuth and Twitter OAuth
- Integrated Stripe and WorldNet payment gateways
- Implemented KYC verification systems using SumSub and Stripe Identity
- Built responsive web interfaces using Figma designs converted to Tailwind CSS
- Developed React Native mobile apps for internal treasury management tools
- Worked remotely within a global team – limited direct interaction with local Shanghai HR

Shanghai Pactera Technology — Software Developer

Jul 2021 – Oct 2023 | Shanghai, China

- Developed cross-platform mobile UI components using React Native
- Built Python-based backend services for data processing using FastAPI
- Created internal admin dashboards with real-time data visualization using Next.js
- Managed company WordPress sites and custom plugin development
- Collaborated on API design and database optimization for high-volume transactions

KEY PROJECTS

Catering Supply Direct: E-commerce platform with shopping cart and checkout (React, Next.js, Stripe, TypeScript)

Curico: AI-powered children's educational app (React Native, ChatGPT API, Node.js)

SplitLevel: Real estate platform (frontend focus) (React, Nest.js, PostgreSQL)

Bloomtrak: Workforce management with real-time dashboards (Next.js, Chart.js, Socket.io)

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React, Next.js, React Native, Vue.js

Backend: Node.js, Nest.js, FastAPI, Flask

Design: Figma (design to code)

CMS: WordPress (custom themes, plugins)

UI Libraries: Tailwind CSS, Material-UI, Bootstrap

Testing: Cypress, Jest, Unit Testing

Payments: Stripe, WorldNet

APIs: ChatGPT API, RESTful APIs, GraphQL

Tools: Git, GitHub, JIRA, Firebase, Docker

EXPERTISE AREAS

- Frontend: React, Next.js, React Native, responsive UI, Figma to code
- Backend: Node.js, Nest.js, Python (FastAPI), REST APIs
- CMS: WordPress development, custom plugins, headless CMS
- Architecture: Scalability, performance optimization, clean code
